FEBRUARY MEETING

'68

Depending on "Northeaster"

or

Flu Epidemic

The WELLESLEY AMATEUR RADIO SOCIETY will hold its February meeting on Tuesday, February 6th at 7:30 PM in the Club Room, located in the basement of the Wellesley Hills Branch Library.

It was a great disappointment not to have club member, Henry Cross, W1OOP speak at the January meeting. His flu disabled vocal cords are now recovered. Henry will speak to us on the "Field Effect Transistor and RF Overload". Please plan to mark the date in the log. You will be sorry if you don't.

One thousand bouquets go to Club Member George Downs, W1CT, for leading a discussion on Ionospheric Predictions in 1968 at the January meeting. Thanks very much George.

The Novice Course started off with a bang on January 18th with 10 members present. Hank Robinson's General Course is going well. He will welcome new members.

Before you know it, Field Day will be upon us. Prexy, Marshall Cannell would like to know who is interested in this program. Why not call him at 237-0055?

PLAN TO BRING A FRIEND
